EJINI JACKREECE

PROFILE

Born on 28th of April 1985, Jackreece Ejini is a Self-taught computer programmer with a grand vision of making major contributions to the field of Artificial Intelligence. I am an internally motivated, self-starting, focused and flexible individual. I work well in a team and I am willing to accept a leadership position when called upon. I am a fan of Mr. Stephen Wolfram and consider him the Newton of our times. The book A New Kind of Science is equivalent to Newton's Principia. I have a strong conviction that I can research the solution to any problem if given reasonable time and resources.

SKILLS & ABILITIES

Languages (In order of descending Interest):
Wolfram Language, Python, (HTML/XML, javascript,CSS), Lisp, C/C++, Java

Operating systems: Windows and Linux

Misc: Algorithmic thinking

I've Attended Many MOOCs from prestigious institutions like: MIT, Stanford and Princeton and studied many things from Computer algorithms, cryptography, machine learning and neural networks. I have also done a course on Neuroscience from Duke University.
