Recent Experience

Start Up Placements

Solve.Earth (freelance, 2018)

Market research, conducting surveys and interviews to
make recommendations for designing programs to teach
eco-entrepreneurship

EdSurge Independent (part time, 16 months, 2016/17)

Worked to amplify global student voice through diverse,
action-oriented dialogue
Designed and delivered a curriculum of speakers and
discussion sessions
More than tripled the readership of our Medium
Publication, quadrupled the number of applications for
membership, and tripled the number of countries
represented

Opinary (part time, 5 months, 2016)

Developed strategies for new customer on-boarding
Completed a data analysis project using genetic
matching and linear regression, with the goal of
recommending data backed strategies for improving
customer engagement

Enterprise Internships

People Analytics and Project Management, Amazon (Summer 2017)

Performed regression analysis to find causes of
attrition in Fulfilment Centers

Participated in the Intern Circle skill share
program where I taught classes on inferential
statistics, data visualization, and RStudio

Global Human Resources, Liberty Global (Summer 2016)

Researched and formulated proposals on
improving employee engagement
Proposed a new internship program, which was
the basis of globally implemented schemes

Other Experiences

Wolfram Summer School, Education Innovation Track (Summer 2018)

Designed a curriculum in Wolfram Language to
teach survey design and analytics

A-Levels (2013)

English Literature, Mathematics, Philosophy
and Ethics, Theatre Studies, Extended Project

Living and Working in 10 global cities across 4 continents in the last 5 years

Delivered a Summit at SXSWEDU 2016

Worked with other Minerva students to deliver
a summit focused on re-inventing Higher
Education.

2,000+ hrs work with children and youth
