## Experience

Freelance

OSINT Researcher

February 1993 - January 2023 (30 years)

Freedoms Foundation: for Ambassador Starr of Hoover Institute I reported on the nuclear material of the Soviet Union (1990). Eventually, on Y2K and later post-9/11 issues. Currently I am analyzing GPT. (Privately, I am working on Python code and C++.)

Retired

Education Professional

August 1981 - July 2021 (40 years)

Started teaching in September of 1981'; retired 40 years later.

Jung Institute; Zurich, Switzerland (October 1984)

.....Lectured for two weeks on Jiddu Krishnamurti and Padre Pio

La Salle College High School (1985-2021) World Religions and Moderator of the Computer Club.

## Philadelphia Computer Club

### Machine Technician

September 1995 - June 1998 (2 years 10 months)

Huntingdon Valley, Pennsylvania, United States

GPT is Rule 30 on steroids: GPT fulfills Bill Joy's year 2000 prediction ("Wired") that the future doesn't need us. The iterations of "training" means GPT 5's design of GPT 6 creates the next species. Misinformation and malware, as bad as they are, are small concerns compared to our replacement.

## Montgomery County Community College

### Representative

September 1991 - June 1992 (10 months)

Representative of the organizational staff of the Writers Club of MCCC. Results were writers Claude Koch and Adrian Lee were guest speakers. (I read my short story "Mirror Lake"). I was first published in my senior year in high school with the short story "Day of the Sun" and I did reporting for the Chestnut Hill Local in 1968.

## Archbishop Ryan High School

### Senior Evaluator

October 1982 - November 1982 (2 months)

Philadelphia, Pennsylvania, United States

Institutional documents. Faculty interviews. Administration's needs. All of this indicates that the report was audience dominated. Concise and factual-based, the report reveals an up-to-date foundation, This was relevant analysis in a team context. We produced the Middle State report on Archbishop Ryan High School.
